dedicated office

site identification process

1 contract and budget negotiation

35+ years experience

230 clinical trials

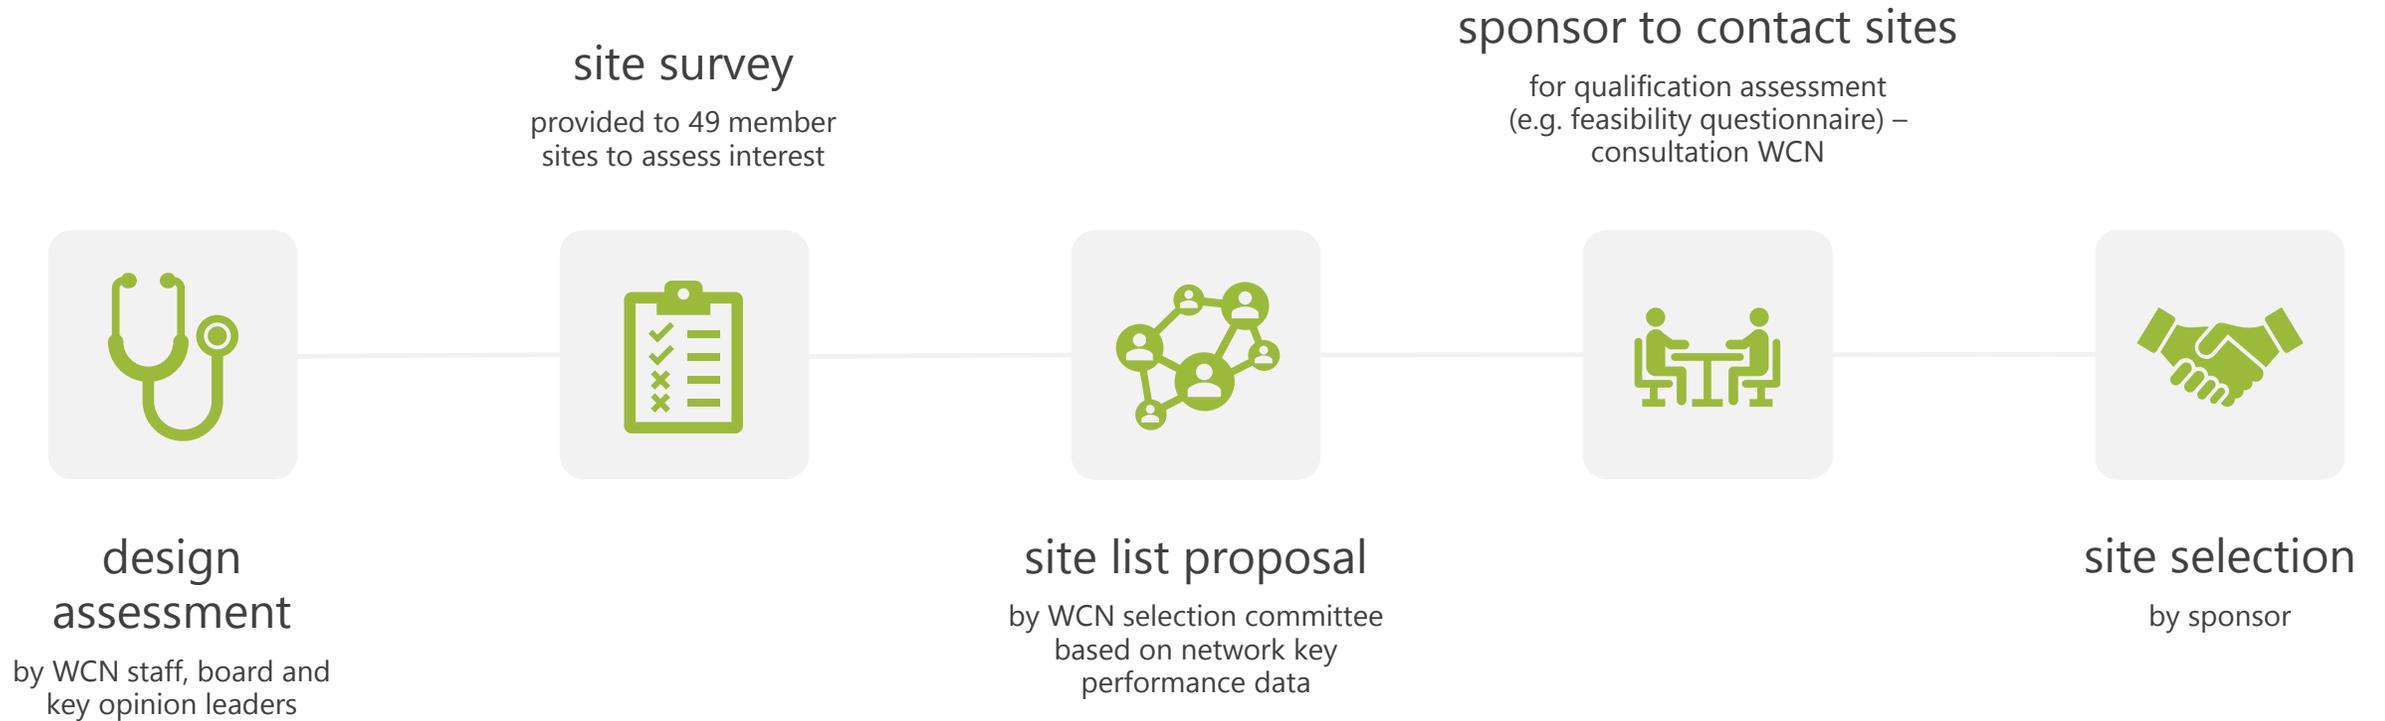

48.500 subjects

Providing qualifying member sites based on network data

// Dedicated points of contact simplifying contracting multiple sites

// service agreement
covering WCN services

// national CTA
centralized negotiation &
CTA template used as is*

**some sites also require a local legal review*

one budget
established for
all WCN sites

negotiations
complete
terms & conditions agreed,
and financial appendix
inserted into CTA

signatures
each site signs a contract

site payments
WCN to invoice sponsor
& pass payment to site

Our ways of working

// SCIENTIFIC ADVICE

Optimizing your study objectives through protocol design insights from our experienced clinical investigators and key opinion leaders.

// CENTRALIZED CONTRACTING

A dedicated contact represents our members during terms and conditions negotiations, resulting in one contract, a single budget and co-signing the Clinical Trial Agreement.

// DELIVERING COMMITMENTS

The performance of our member sites is closely monitored to ensure timely support is available when needed. Actively working with our clinical sites to realize our obligations.

// STUDY GOVERNANCE

Our collaborative nature aims for long-lasting partnerships. A culture of accountability has been established through dedicated roles, effective communication, and a genuine sense of responsibility.

// SITE IDENTIFICATION

Identifying the best member sites for your study by pre-selecting clinical sites from our network based on key performance data.

// INTEGRATED INVOICING AND PAYMENT

Simplifying and accelerating your invoicing and investigator payment processes with our conveniently integrated billing procedures.

// QUALITY ASSURANCE

Ensuring high quality clinical data for your study through our network's Standard Operating Procedures, educational program, and a culture of best practice sharing.

// TOOLS

Enabling direct interaction among our member sites using our network's intranet which serves as a key communication tool.
